VICTOR, Mont. — October 2026 — Shepherd's Garage is celebrating its first anniversary serving the Bitterroot Valley, marking an important milestone for the fourth-generation, family-owned Montana equipment dealership.

Since opening its Victor location in 2025, Shepherd's Garage has focused on building lasting relationships with farmers, ranchers, contractors, and property owners throughout the valley. The dealership offers equipment sales, parts, and service with an emphasis on responsive customer support.

For Aaron Inboden, who has helped lead the Victor location through its first year, the response from the community has been especially encouraging.

"I've been pleasantly surprised by how well the Bitterroot Valley has welcomed us," said Aaron Inboden. "It's been exciting to see the relationships we've built in just our first year. One thing I really appreciate about Shepherd's Garage is that we're willing to go the extra mile and do things other dealerships might not to keep our customers up and running. Customer service comes first here, and I'm proud to be part of a company that stands behind that."

The Victor location supports agricultural, construction, and property maintenance customers with equipment from manufacturers including Bobcat and Vermeer.

"We've been fortunate to have some great people representing our business in the Bitterroot Valley," said Toby Shepherd. "Aaron and the entire Victor team have done a tremendous job building relationships and taking care of customers. We're grateful for the support we've received, and we're excited to continue growing alongside the

community.”

As Shepherd's Garage looks ahead to its second year in Victor, its focus remains on strengthening relationships and helping equipment owners stay productive. The company thanks the Bitterroot Valley community for its support during its first year.

About Shepherd's Garage

Shepherd's Garage is a fourth-generation, family-owned Montana equipment dealership offering equipment sales, parts, and service. With locations in Jackson, Dillon, Helena, and Victor, and expansion underway in Missoula, the company serves customers throughout western Montana.
